## PYROIL™ FUEL DRYER & ANTIFREEZE (ISOPROPYL)

### DESCRIPTION:

Water is almost always present in fuel, either as results of contamination or condensation. Ice during cold weather and rust during any weather mean trouble. **Pyroil Fuel Dryer & Antifreeze (Isopropyl)** inhibits both ice and rust while removing water from the fuel system. Rust, like ice, can stop fuel flow by clogging filters and critical passages in the fuel system. Most importantly, the presence of rust means some component of the fuel system is deteriorating. Unlike ice, rust occurs year-round, which means fuel systems need year-round protection. **Pyroil Fuel Dryer & Antifreeze (Isopropyl)** is formulated with a proven rust inhibitor. Recommended for year-round use with gasoline or diesel fuel. Ideal for automobiles, trucks, tractors, motorcycles, boats, snowmobiles and construction equipment. This product complies with the federal low sulfur content requirements for use in diesel motor vehicles.

Keep away from heat, sparks and open flames. Use only with adequate ventilation.

Part Number	Description	Unit UPC
PYFDI12	Pyroil Fuel Dryer & Antifreeze (Iso) 12/12 oz.	0 28882 10078 6

### BENEFITS:

- Stops Gas Line Freeze
- Achieve Quicker Starts
- Removes Water From Fuel
- Safe For Fuel Injectors
- Use Year-Round
- For Use In Cars, Trucks, Tractors, Motorcycles, Boats, Snowmobiles & Construction Equipment
- Contains Corrosion Inhibitors
